

# Real Organic Project Certificate

## Fat Turnip Farms

Kingston, WA

Real Organic Project hereby certifies that the above operation is compliant with the standards developed by the Real Organic Project Standards Board. For a complete list of standards that this document verifies, please visit [RealOrganicProject.org/standards](https://RealOrganicProject.org/standards).

**Crops** are grown in healthy living soil connected to the subsoil.

**Livestock**, if applicable, is given meaningful year-round access to the outdoors. Additionally, species-specific pasturing and animal welfare requirements have been met.

**No Products** within the same product category are simultaneously produced as certified organic and non-certified organic. This reduces fraud and consumer confusion, allowing for greater integrity within the certified organic marketplace.

\*\*The validity of this certificate is outlined in the accompanying **Terms and Conditions** document

**ROP Certification #:** rop12334

**Processed Products:**

**ROP Non-Certified Products:**
